“Those of us who have EEBO ……have seen the changes that this has wrought in the study of 16th and 17th century British literature and culture. We see more and more undergraduates being asked to identify and work with primary texts relevant to their research.

I believe that ECCO will inevitably bring similar transformations to the study and teaching and research of the 18th century. The additional value here is that, unlike EEBO, all texts in the database are full-text searchable from the outset.”
